REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Sullivan:

I herein submit my third annual report as superintendent of schools.

The fundamental purpose of the American Constitution, as defined in the preamble, "to promote the general welfare," placed heavy responsibilities on all institutions for public education. Now that we have plunged into the Atomic Era, a higher level of universal education is imperative.

"The men and women in uniform are coming home having finished the gigantic job of making human freedom possible. Victory in the war against ignorance necessitates another great invasion in which the penalties of failure are as grave as that of a military disaster. The knowledge, the skills and the understandings gained by our young people in the next few years will determine whether this country can or will solve the difficult social, economic, and political problems that make peace possible. The implications of all of this is very clear. The teachers have a key position in the most essential business of all. These commandoes of the peace must be well trained and equipped if their mission of 'the general welfare' is to be accomplished."

At the White House Conference on Rural Education in 1944 some interesting facts were revealed. Although the rural children of school age constitute more than half of such children in the nation they have only 38 percent of the available funds for the support of schools. The average salary of rural school teachers is less than one half that of urban teachers. The number of high school graduates is about fifty percent higher in urban schools. The per pupil investment in equipment and property is lower in rural areas but the per pupil daily cost is greater than in urban areas. This idea of contributing more and receiving less would be much worse in

some districts if it were not for the State Equalization Fund in New Hampshire.

The teacher shortage is at present our most serious problem. The small community without an experienced resident teacher faces a critical situation.

The decrease in enrollment at the Sullivan Center School made it advisable to operate only one school building in the district under the present conditions. Due to the fact that Evelyn Osborn had resigned at the close of the school year in June 1945, Freda Hastings was transferred to the East Sullivan school in September 1945. This change in organization has reduced the operating cost per pupil to the district. However, the increased cost of transportation and the anticipated decrease in State Aid, due to the limited enrollment, are also factors to be considered.
